ROHIT PALARAM

Full-Stack Developer | AI Applications | Backend Development
Hyderabad, India | +91 9347540592 | palaramrohit123@gmail.com
Portfolio | GitHub | LinkedIn | AIMERS Website

Professional Summary

Information Technology undergraduate at MVSR Engineering College with hands-on experience developing full-stack applications and AI-powered prototypes. As Technical Lead at AIMERS, I contribute to architecture planning, phased implementation, integration, and testing. Experienced in AI-assisted development workflows, REST APIs, database-backed applications, and multi-LLM orchestration. Interested in building practical software products while strengthening core engineering skills.

Technical Skills

Languages: Python, JavaScript, TypeScript, C, HTML, CSS
Frontend: React, Next.js, Vite, Tailwind CSS, shadcn/ui
Backend: FastAPI, Flask, REST APIs
Databases and Authentication: Supabase, PostgreSQL, MongoDB, Firebase Authentication
AI Development: LLM API integration, multi-LLM workflows, AI-assisted implementation, testing and debugging

Experience

Technical Lead Apr 2026 – Present
AIMERS Student Body, MVSR Engineering College Hyderabad

- Lead technical planning and coordinate phased development of the AIMERS Event Management Platform with two co-developers.
- Review implementation plans and coordinate feature development, testing, troubleshooting, and refinements.
- Contributed to a deployed platform with Admin, Coordinator, and Participant portals for event operations.
- Developed workflows for Data Matrix-based attendance and meal tracking, plus flexible participant and team management.

Software Development Intern May 2026 – Jun 2026
Algorithm Alliance Private Limited Hyderabad

- Worked on a club website during a one-month summer internship.
- Contributed to website development according to project requirements and gained practical exposure to software workflows.

Frontend Developer Sep 2026 – Present
HackB4 Website

- Developed frontend components for a dark, space-themed event platform, contributing to page layout, navigation, and user-facing event discovery sections.

Selected Projects

AIMERS Event Management Platform *Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL*

Live: aimerseventmanagement.vercel.app | *Source:* GitHub Repository

- Contributed to a deployed event-management platform tested with real event data involving 200+ participants.
- Developed role-based Admin, Coordinator, and Participant workflows, including camera-based Data Matrix scanning for attendance and meal tracking.
- Implemented flexible participant and team-management workflows to accommodate late registrations, team assignments, and adding participants to existing teams.

AI Mock Interview Platform *FastAPI, React, TypeScript, MongoDB, Supabase, LLM APIs*

- Developed a working prototype covering screening, technical assessment, and scenario-based problem solving.
- Integrated chat and voice interaction, resume-aware context, phase tracking, and a results dashboard.
- Designed multi-LLM orchestration for candidate interaction, evaluation, and reporting; secured second place at Microsoft Codethon.

EduMentor AI – Personalized Student Guidance *Python, FastAPI, React, REST APIs, AI/LLM Integration*

- Built an AI-assisted platform for academic and career guidance.
- Implemented resume analysis, skill assessment, recommendations, learning-resource suggestions, chatbot interaction, and career roadmap generation.
- Won first prize at the Forge Alumnus Code-athon.

Aura – Digital Twin Healthcare AI System *React, TypeScript, Python, Flask/FastAPI, MongoDB*

Source: Digital Twin GitHub Repository

- Developing a healthcare-oriented prototype for patient information, report uploads, OCR-based extraction, data normalization, and formula-based assessments.
- Exploring organ-specific insights and a planned 3D anatomical digital-twin experience.
- Secured third place at the 24-hour Samavarthan Hackathon. The prototype is under development and is not clinically validated.

Education

MVSR Engineering College, Hyderabad Sep 2023 – May 2027
B.Tech in Information Technology CGPA: 8.15/10

Achievements

- **Microsoft Codethon:** Second place with an AI-powered mock interview platform.
- **Forge Alumnus Code-athon:** First prize for EduMentor AI.
- **Samavarthan Hackathon:** Third place for Aura.
- **BITS Hyderabad Hackathon:** Top 15 team finish, among a reported 3,000+ teams.
- **CBIT Hackathon:** Top 7 finish.

Additional Experience

INSPIRA 2026 – Event Promotion and Outreach Mar 2026
Supported promotional campaigns and student outreach to increase event awareness and registrations.
